2. The animal is not suffering from any infectious or contagious disease.
3. All rams must have two adequately sized testicles of approximately the same size and normal consistency.

The inspector should consider the following points and is empowered either to disbar the animal from the sale or alternatively any faults found by the inspector shall be declared to the auctioneer who shall announce these at the time of the sale. Any comments made by the inspector will be communicated to the SSBA President, or their representative, who will communicate to the breeder(s) or owners concerned prior to the sale and, where necessary, consider whether changes to the policy of announcing such information by the auctioneer should be made

4. The teeth of the animal are in the correct position. Account will be taken of the age of the animal.
5. There is no abnormal deviation in the structure of feet and/or legs.
6. Ewes shall be sound in udder.

All males must be birth notified and eligible for registration.

The vendor selling a ram or ram lamb to a society member will be required to register the sold animal.
